Pol.Gen. Aswin Kwanmuang

Governor of Bangkok

The Bangkok Metropolitan Administration (BMA)'s main mission consist of providing services to its people and city development in every aspect to improve people's quality of life. One of the very important is about medicine and public health because they are directly related to health, an important factor of well-being. So BMA's Administrators and I emphasize on the development of medical and public health services, aiming at strengthening to their health before having treatment. Moreover, we improve an effective treatment system by promoting potential to our hospitals and health centers to make it ready and enough to all patients.

Charoenkrung Pracharak Hospital is one of the BMA's hospital that has provided services to Bangkok citizens for 46 years. Since 1971, the hospital has operated development such various specialization in medical treatments as Complete Alternative Medical Center. Urological Surgery Patient Care Center. The quality treatment technology that is universally accepted has also been used like Development of Bangkok Metropolitan Endoscopic Center, certified to be Thailand's first branch of Asia-Pacific Association for Gynecologic Endoscopy and Minimally Invasive Therapy (APAGE). In addition, it is accredited as an APAGE training center (APAGE Training Center in Minimally Invasive Gynecology (ACMIG)) and also be a co-teaching agency with Maefahluang University to produce the 4th year medical students. It has also been approved by The Medical Council of Thailand as a resident training.

Although its successive development of potential service, the BMA has planned to strengthen the ability of hospital by building the Center for Sports and Rehabilitation Pathology, nursing dormitories, parking lots, project about nutritional support buildings including medicine supplies, laundry room, packaging, elderly centers and child & mom centers. All of these will be provided for comprehensive enhancing public services and public health.

On the occasion of the 46th Anniversary of establishing Hospital, I would like to convey my sincere thanks to all administrators, doctors, nurses and staffs for working tirelessly with perseverance and making people recognize the potential of providing medical services quality in accordance with the international standard. That is a great pride. I wish you and your family a happiness, prosperity, good health and be a part of us to improve the Hospital for its strong and continuous services to the people in the future.

Pol.Gen

(Aswin Kwanmuang)

Governor of Bangkok
